Sir:

In addition to Amendment A faxed to USPTO on May 8, 2005, please amend the above application as follows:

Claims

Claim 27, change

"27. A method of displaying information in a window on a display device having a memory storage, while scrolling through a document displayed in the window, said window displaying only part of the document, the method comprising the steps of:

providing a window for displaying a document; and

providing means for scrolling the window; and

displaying in the window a first portion of the document; and

receiving a scroll initiate event, and
